- Draft land procedures adapted to the mission environment and ensure their application.
- Participate in R&D for new equipment or practices.
- Research innovative practices and techniques.
- Keep abreast of technical developments in your specialty.
- Take into account the needs and constraints of local users.

Provide advice and support to field and cell teams

- Be the first line of support for OCP missions.
- Advise and support Cell Coordinators and Logistics Managers in making decisions relating to their technical specialties.
- Carry out field visits according to a frequency defined in the technical policies.
- Participate in the budgeting of missions in their specialty.

Be responsible for monitoring and analyzing your activity

- Participate in defining the referential required for monitoring and reporting tools.
- Analyze the components of your activity for all missions at least once a year.
- Monitor activities in the field and maintain the Basics of the missions in your geographical coverage, in particular through frequent technical visits.

Contribute to the development of cross-functionality

- Share information and knowledge, develop the ability to work with other departments on cross-functional projects.

Contribute to skills transfer

- Contribute to training modules in your field.
- Train teams of field specialists.
- Maintain a high level of competence in your field among its employees, especially the Logistics Coordinators.

Framing

- Participate in the recruitment of country specialists.
- Monitor the progress of country specialists' technical objectives.
- Participate in the annual evaluation of country specialists.

Professional skills

Profile required:

Education and experience:

- University degree, BAC +5 or equivalent certification in a technical field.
- Experience of at least 2 years in BIOMED.
- Experience in MSF

Languages: Fluent French and English (mini B2)

Skills:

- Master the technical skills of your specialty.
- Master project management.
- Mastery of the Office pack (Outlook, Word, PowerPoint, Excel), Power BI skills would be an asset.
